

**AMENDMENTS TO THE CLAIMS:**

This listing of claims will replace all prior versions and listings of claims in the application:

1. (Currently Amended) A reshapable hair styling composition comprising, in a cosmetic vehicle appropriate for hair, at least one polyurethane, wherein said composition provides a reshapable effect, wherein the reshapable effect provides a hair styling that can be restored or modified without new material or heat being applied.

Claims 2-28 (Canceled)

29. (Currently Amended) A reshapable hair styling composition comprising, in a cosmetic vehicle appropriate for hair, at least one dispersion comprising at least one polyurethane, wherein said composition provides a reshapable effect, wherein the reshapable effect provides a hair styling that can be restored or modified without new material or heat being applied.

30. (Currently Amended) A reshapable hair styling composition comprising, in a cosmetic vehicle appropriate for hair, at least one dispersion comprising at least one polyurethane in a water and/or solvent medium, wherein said composition provides a reshapable effect, wherein the reshapable effect provides a hair styling that can be restored or modified without new material or heat being applied.

31. (Currently Amended) An aerosol device comprising a vessel, which comprises (1) an aerosol composition, which comprises a liquid phase comprising at least one composition comprising at least one polyurethane, wherein said composition provides a reshapable effect, and a propellant, and (2) a dispenser,

wherein the reshapable effect provides a hair styling that can be restored or modified without new material or heat being applied.

32. (Currently Amended) A method of cosmetically treating hair, comprising the application of a composition comprising at least one polyurethane to the hair before, during, or after the shaping of the hairstyle, wherein said composition provides a reshapable effect, wherein the reshapable effect provides a hair styling that can be restored or modified without new material or heat being applied.

33. (Currently Amended) A method of manufacturing a reshapable hair styling composition comprising the inclusion of at least one polyurethane, wherein said composition provides a reshapable effect, wherein the reshapable effect provides a hair styling that can be restored or modified without new material or heat being applied.
